How the For-Profit Healthcare Industry is Killing Us

Our for-profit healthcare system exploits and harms patients and their caregivers. Nurses are not only overworked and burned out: 18% of them die by suicide. Experienced nurse and educator **Kathy Allan** knows all about these systemic ills and can discuss solutions that effectively address a healthcare system run amuck in the quest for profits.

She knows there is a solution for the increase in patient deaths due to preventable medical errors, and a solution for the increase in workplace violence against doctors and nurses.

The founder of Gutsy Nurses, an organization dedicated to restoring the ethical practice of nursing as well as the sacred trust patients place in their caregivers, Allan is the perfect guest to give an insider's perspective on what's wrong and how to fix it.

SAMPLE QUESTIONS: Can you describe the moment you realized our healthcare system was broken and that "the fix was in"? How can nurses improve their caregiving skills for themselves as well as their patients?

How Ending DEI Initiatives Will Harm Our Workforce

There's been a major recent focus on companies and government agencies eliminating diversity, equality, and inclusion (DEI) initiatives in the workplace. According to author and DEI expert **Sara Ting**, this will have a very negative impact on the workforce across the board.

"These initiatives are essential to creating a workplace where everyone feels seen, heard, and respected," she says. "In our society, the workforce is very diverse. We have to uphold respect for our differences in order to be optimally productive."

Sara is a DEI educator, speaker, consultant, and author of *Small Book with a Big Idea: 5 Minute Training to Empower You and Transform the World*.

SAMPLE QUESTIONS: Why are some companies halting DEI initiatives? How does maintaining DEI policies benefit companies and employees?

Interview the Navy Seal Who Killed Osama bin Laden

Robert J. O'Neill is one of the most highly decorated combat veterans of our time and is credited with firing the shot that killed Osama bin Laden, mastermind of the 9/11 terrorist attacks. Have Rob share his experiences as part of over 400 combat missions in Liberia, The Balkans, The Persian Gulf and Indian Ocean, Ukraine, Iraq, Afghanistan, and Pakistan.

Ask him about his role as team leader for Operation Neptune's Spear, the mission to kill Osama bin Laden or being the lead jumper for the rescue operation that saved Captain Richard Phillips from Somali pirates.

The author of *The Operator: Firing the Shots that Killed Osama bin Laden and My Years as a SEAL Team Warrior*, Rob is now a security consultant and philanthropist who provides media analysis on terrorism and military strategy.

Are Tariffs Really the Key to America's Future Prosperity? This Finance Expert Says 'Yes'

Veteran wealth manager **Rodger Friedman** isn't afraid to say what others won't: Tariffs aren't a problem—they're the solution. Author of the hard-hitting column "Equal Opportunity Times," Friedman dives headfirst into the economic debate that many politicians dodge.

Drawing from decades of financial experience and geopolitical observation, he makes a bold case for tariffs as a tool to protect American jobs, secure economic sovereignty, and push back against manipulative global trade practices.

Friedman's no-nonsense style pulls no punches and invites your audience to think critically about how America does business with the world. If you're tired of sugar-coated economic theories and want unfiltered insight from someone who's seen it all, invite him on your show.

SAMPLE QUESTIONS: Why do you believe tariffs are essential for reclaiming U.S. manufacturing strength? Can imposing tariffs actually benefit the average American consumer?

CONTACT: Rodger Friedman at (301) 327-2255; rfriedman@rtirguests.com

How This Psychotherapist Healed Decades of Trauma with Psychedelics

Psychotherapist **Anjalía McGoldrick** was catapulted into adulthood at age nine, pregnant by thirteen, and out in the world in an abusive relationship as a young mother at fourteen. Ultimately, she escaped this relationship at sixteen.

She triumphed over against incredible odds and overcame many obstacles to become very successful but she still harbored a deep wound from the difficult decision she made as a desperate young mother to leave her child behind.

Are you ready for a show about heartbreak, healing, growth, and forgiveness? Invite Anjalía on to talk about her journey and how psychedelic medicine changed her life.

SAMPLE QUESTIONS: Why do you believe psychedelics are such a powerful tool? What role has hope played in your story? Why is psychedelic medicine becoming more widely accepted?

Anjalía is the author of *The Child I Left Behind A Mother's Journey Toward Healing & Forgiveness*.

From Mt. Everest to a Solo Expedition in Antarctica: Interview This Pioneering Female Mountain Climber

After years of working as a top corporate executive, **Siv Harstad** experienced severe burnout. So she decided to climb new mountains, literally. She tackled the world's seven summits, the highest peak on all continents, including Mt. Everest and Kilimanjaro; and the highest volcanoes on all seven continents, totaling 33 expeditions.

Ironically, she used to suffer from an acute fear of heights! Her experiences became a metaphor for tackling life's challenges, especially for women. "If I can manage to climb Mt. Everest, so many other people can do things that they have been dreaming about, especially women," she says. "More women than men hold themselves back, due to their upbringing and societal imprints."

SAMPLE QUESTIONS: How did you overcome your fear of heights to climb the world's highest peaks? What can women do to stop holding themselves back and take on bolder challenges?

Don't Let Your Kids Fall Behind This Summer: This Ph.D. Demystifies Math for Struggling Students

Dr. Craig Hane—aka Dr. Del—isn't just another math educator. He's here to provide what our school systems won't: "Most students have had a bad experience with math," Hane writes, "and even if they survived it, they find much of what they were tested on of little value." This summer is the perfect time to reorient your teen to the accessibility—and future practical benefits—of math.

Hane is the founder of the Triad Math Army, a revolutionary system designed to make math fun, fast, and actually useful for teens and young adults who feel left behind. Book him on your show to discover that, most of the time, the problem isn't the math concepts — it's the teachers.

SAMPLE QUESTIONS: How can a teenager who hates math learn to love it in just weeks? Why do you believe most schools are teaching math all wrong?

CONTACT: Dr. Craig Hane at (812) 408-8047;

Meet the Man Who Was Sending Viral Emails Before Social Media Even Existed

Long before TikTok trends and Twitter threads, one man was making people laugh around the world—by email. Nearly 30 years ago, **W.G. "Bill" Williams** began sending a daily dose of humor to his sales team to get them to actually read their messages.

Williams' emails went viral before "viral" was even a thing, spreading across offices, industries, and continents. Today, his "Thought for the Day" still hits inboxes from Ohio to Australia, and now, he's finally sharing the best of them in a new book series: *20 Years of Internet Humor ... and Other Interesting Things*.

A former FEMA spokesperson, university professor and consulting entrepreneur, Williams has been quietly building one of the internet's longest-running humor traditions. Have him on your show to talk about the power of laughter, the evolution of communication and how to build an audience that sticks around for three decades.

SAMPLE QUESTIONS: What first gave you the idea that a joke could inspire your employees? Can you share a story about your college buddy, the late musician John Denver?

What Was It Like to Fly Nighttime Bombing Missions in Vietnam? Ask This Combat Veteran

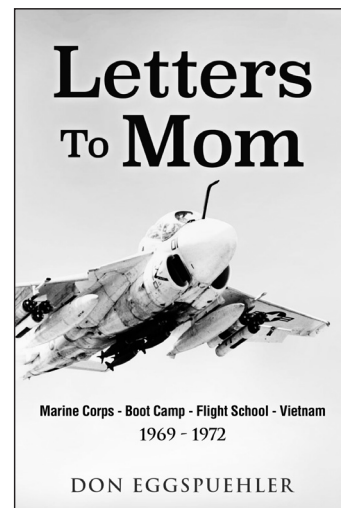

It's a long way from Iowa Falls to North Vietnam, and Marine combat pilot **Don Eggspuehler** probably never felt as far from home as when flying his Grumman A-6 Intruder during a night bombing mission to disrupt enemy supply lines.

Eggspuehler details harrowing missions like these in his latest book, *Letters to Mom*, streaking along valley highways in the mountains of Laos, with no visual or radio navigation aids, a pitch-black cockpit, and nothing but radar to direct course, altitude, and bombing. When the loud siren-like beeping filled his headphones warning of a surface-to-air-missile launch, Eggspuehler knew he had to break—but where? Into the side of a mountain?

SAMPLE QUESTIONS:

- What was your first night bombing mission like?
- How did re-reading your Vietnam-era letters home help give you closure?

Why Art Isn't Just for Artists — It's a Lifeline for Mental Health

In a world full of noise, chaos, and uncertainty, author and educator **Lynette Watkins** offers a path to clarity—through art. As a passionate advocate for creativity, Lynette believes art isn't just decoration—it's a spiritual experience, a mental health lifeline, and a powerful tool for education.

Lynette shows us that healing, inspiration, and resilience often begin with a brushstroke. She says, "If you're ready to thrive—regardless of what's happening in the world—take a trip with to the nearest art museum... and find yourself."

Lynette is an acclaimed artist, professor of art, writer, musician, and author of *Can It Be That Some Chains Are Mere Shadows? A Visual Journey From Darkness To Light*.

SAMPLE QUESTIONS: How does creativity help to alleviate stress and anxiety? Why is art an afterthought in our society, and what can we do to change that?

How to Time Travel This Summer—Into Your Past Lives

Ready for a summer of true self-discovery? **Alla Kaluzhny**—spiritual psychologist, certified oracle cards reader, licensed therapist, certified hypnotherapist and award-winning author—invites your audience to explore the soul's journey across lifetimes.

Her past-life memoir *Turning the Pages* won a Silver Medal in the 2024 International Book Awards and was named 2nd Place in The Most Moving Book 2023 Awards.

While most guests talk about past lives, Alla remembers her own—and shares them in vivid, emotional detail. She reveals how who we were before shapes who we are now—our relationships, fears, patterns and choices.

On your show, Alla can:

- Share unforgettable stories from past incarnations.
- Explain how past-life patterns impact your present.
- Answer questions about karmic relationships, déjà vu and destiny.
- Offer a live mini past-life reading to the host or a listener.

Timely Segment for Juneteenth & Black Music Month

Before Beyoncé Broke Into Country — Marian Anderson Broke Barriers

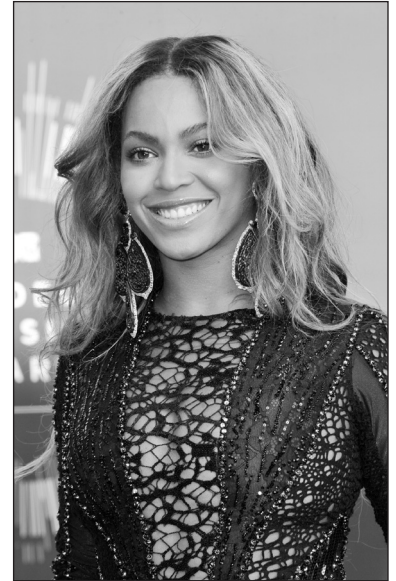

As Beyoncé makes her mark in country music with her Cowboy Carter tour this summer, now is the perfect time to spotlight the story of the original barrier-breaking Black woman who helped make moments like this possible: Marian Anderson.

Long before genre-bending was celebrated, Marian was denied the stage at Constitution Hall—so she sang on the steps of the Lincoln Memorial before 75,000 people, sparking a cultural shift that helped launch the Civil Rights Movement.

In *Remembering a Great American Hero: Marian Anderson—The Lady From Philadelphia*, author **Emile Henwood** reveals how Anderson used her voice to do more than sing. She mentored icons like Martin Luther King, Jr. and Jackie Robinson and her legacy still shapes modern artists and activists today.

**Her story is a must-hear during Juneteenth and Black Music Month.
Book him for a conversation that bridges Marian to Beyoncé
—and history to now**

How to Heal the Toxic Social Environment That Drives Youth Suicide

In a world where suicide is now the leading cause of death for people ages 10-33, therapist **Sally Raymond** is on a mission to change the narrative. With over 33 years of experience and 29,000 therapy sessions without a single loss to suicide, Sally's expertise is undeniable. Her deeply personal journey—shaped by the loss of her son to suicide—continues to fuel her determination to help others avoid the same unnecessary and heartbreaking fate.

Sally has worked tirelessly to uncover the toxic social forces that first took her own son to suicide, and still work to demoralize today's youth in ever-increasing numbers.

In this powerful interview, she'll reveal the hidden factors contributing to the rising suicide rates, including bullying, social media pressures, and lack of emotional support. Sally's message is clear: while we can't always prevent suicide, we can always make life worth the living.

Don't miss this opportunity to have Sally on your show to help raise awareness and provide real solutions for healing.

What a Woke Redneck Can Teach Us about Race, Power and Real Leadership

He's white. He's evangelical. He raises bulls for fun. And he's "woke"—but not in the way you think.

Rick Patterson is a former evangelical pastor turned corporate exec and father of four adopted Black children. Through that wild mix of identities, he's learned what it really means to talk about race, masculinity, power and faith without blowing things up.

In his interviews, Rick unpacks:

- How to lead with humility
- How masculinity gets warped by shame
- Why the "culture wars" are failing us

With humor, honesty and a voice both sides can actually listen to, Rick shows how we can bridge divides and build something better.

The author of *Shame Unmasked* and *The Meek Shall Inherit the Earth*, Rick is not here to play it safe—he's here to get real.

Has Christianity Abandoned God's Commands?

Interview the Author Who Says Yes

Churches across the world preach love for God—but are they ignoring what that love requires: obedience to His original commandments? In his thought-provoking book *Following Christ: Rediscovering the Jewish Faith of Jesus*, religious scholar **Harry Buerer** makes a bold claim. He says modern Christianity has strayed from God's instructions, abandoning practices given through Moses including:

- Keeping the Sabbath
- Observing biblical festivals
- Honoring dietary laws

Buerer, a seminary-trained Bible scholar and longtime church leader, argues that Jesus and his earliest followers upheld these teachings—and that Gentile Christians were never meant to reject them. His insights challenge centuries of tradition and invite believers to take a fresh look at what it really means to love and obey God.

This is a conversation that will stir hearts, spark debate, and encourage deeper biblical reflection.

His TEDx Talk Has Over 10.5 Million Views **Delayed Gratification Expert Reveals How This Surprisingly Simple Habit Leads to Lasting Success**

Why do so many smart, hardworking people still feel stuck, scattered or unfulfilled? According to **Emilio Justo, M.D.**, the real problem isn't effort—it's timing.

A two-time international TEDx speaker (with over 10.5 million views) and bestselling author of *The Power of Pause*, Dr. Justo reveals how mastering the habit of delayed gratification—the ability to pause before reacting—can dramatically improve focus, resilience and achievement.

Studies show that people who master delayed gratification are more likely to succeed in school, earn more money and maintain healthier relationships. In fact, the famous Stanford Marshmallow Experiment found that children who could delay gratification were more likely to thrive academically, professionally and personally as adults.

Drawing from his journey as a Cuban refugee who became a renowned surgeon and entrepreneur, Dr. Justo delivers a rare mix of heart, science and actionable wisdom that resonates with audiences of all backgrounds.

In an interview, Dr. Justo can reveal:

- Why delayed gratification—not instant action—is the real driver of success
- The neuroscience behind self-discipline, focus and emotional control
- How to outlast distractions and build a life with more purpose and clarity

If your audience is tired of quick fixes and ready for a mindset shift that actually works, book Dr. Justo to deliver fresh, research-based strategies that stick.

From Pro Athletes to Polka Mishaps: One RN's Journey to a Pain-Free Formula

Imagine living with pain every day and finding no relief from conventional treatments. That's the reality for over 50 million Americans. One woman's injury led her to create a solution now helping thousands find lasting relief.

A wedding dance gone wrong—the Beer Barrel Polka—landed **Stacey Roberts**, a seasoned registered nurse and physical therapist, in an orthopedic surgeon's office. That moment sparked her mission to transform pain care. The result: The Pain-Free Formula—a breakthrough approach that targets the root causes of chronic pain instead of just masking symptoms.

Although pain management became a medical subspecialty in 1995, millions still suffer from unresolved pain tied to hormonal imbalances, food sensitivities, and old injuries.

With over 30 years of experience, Stacey Roberts, RN, PT, MSN blends SoftWave therapy with cutting-edge, non-invasive treatments to help patients find real, lasting relief. Her expertise has not only guided everyday patients to freedom from pain—she has also worked with over 10 national professional athletic teams, helping elite athletes recover faster and perform at their best.

What began with a polka injury has grown into a movement—empowering thousands to live pain-free, without relying on prescriptions or endless procedures.

CONTACT: Stacey Roberts at (414) 310-7845; sroberts@rtirguests.com

SAMPLE QUESTIONS:

- How did a polka-dance injury lead you to revolutionize pain relief?
- What makes The Pain-Free Formula different from conventional treatments?
- Why are hormones and gut health key to fixing joint pain?
- What's one thing people can do today to start living pain free?
- Is there a difference between pain from a sports injury and a recreational dance injury?
- What common threads do you see in how both celebrities and athletes approach and deal with pain, and how does The Pain-Free Formula address those unique needs?

From Mormonism to Addiction and Self-Discovery: This Author Shares Her Wild Road to Redemption

What happens when a devout Mormon mother of five dares to question everything she's ever known? Meet **Susie Bell**, a nurse practitioner who went from being excommunicated from the Mormon Church, a heart-wrenching divorce, and single motherhood in Las Vegas to self-made success.

With honesty and grit, Susie recounts her journey through addiction recovery, being drugged and raped by a famous athlete who relentlessly harassed her, and even a surreal moment in the hospital room with the body of Tupac Shakur following his murder. Her story is not just about leaving religion—it's about reclaiming power and purpose.

She is the author of the memoir *A Piece of Me: Finding My Voice After Mormonism, Marriage, Medicine and Men*.

SAMPLE QUESTIONS: Why were you excommunicated from the Mormon Church, and how did this affect your life? How did you overcome divorce, addiction, and being sexually assaulted?

How Stress Can Be Your Superpower— If You Know Where Your Sweet Spot Is

Stress gets a bad rap. But according to acclaimed psychologist **Stephen Sideroff**, it can be used as a tool for a better life. "Most people see stress as the enemy, but it actually can be a teacher," he says. Rather than bouncing back, Stephen teaches us how to bounce forward with strength, clarity, and a mindset built for growth.

Drawing from decades of research and work in addiction, performance psychology, and brain behavior, he reveals how stress can be harnessed as a tool for transformation, vitality, and even slowing the aging process.

He is a professor and the author of *The 9 Pillars of Resilience: The Proven Path to Mastering Stress, Slow Aging and Increase Vitality*.

SAMPLE QUESTIONS: What are some of the major stressors of modern life, and how can people effectively navigate these? How can people overcome negative coping mechanisms, such as addiction?

Can forgiveness really stop pain and restore peace overnight?

Beatty Carmichael, author of *The Prayer of Freedom*, reveals how unforgiveness is often the hidden root behind relationship conflicts, chronic pain, migraines, and emotional challenges. Working with recovering addicts who experienced extreme abuse, Beatty developed a simple process to help: **3 steps to forgive anyone for anything—even those who are unforgivable.**

Beatty has helped over 700 people find relief from pain, restore relationships, and experience peace. Many see changes immediately—pain disappearing, stress releasing, and calm replacing years of frustration.

Are You Living with Pain? This Expert Shares How to Stay Alive, and Thrive

Vita Oyler is no stranger to debilitating pain. When she was a young, highly athletic woman, she accidentally stepped on a rock, after which she developed reflex sympathetic dystrophy (RSD), a severe malfunction of the nervous and immune systems. This led to decades of excruciating pain and, ultimately, the amputation of her foot and part of her leg. But not only did she manage to survive this, she learned how to thrive and live a full, rewarding life.

Vita is a rehabilitation counselor and doctoral candidate at San Diego State University. She is the author of *Got Pain? Now What?*

SAMPLE QUESTIONS: How did you manage to stay positive and live a productive life following years of severe pain? What practical skills can you share for people living with pain?

Why Top Students Know the Bible — Even If They Aren't Religious

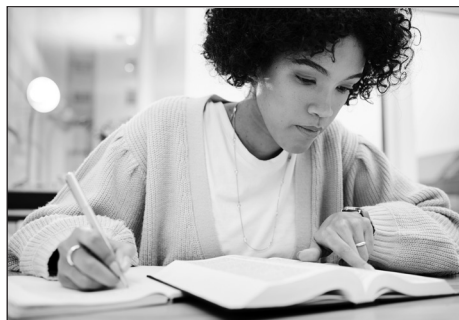

Top students often excel due to their understanding of cultural references, and a surprising factor behind their success is knowledge of the Bible. Even non-religious students benefit from recognizing biblical themes, allusions, and historical context, which enhances their performance in literature, history, and critical thinking.

Tamara Berkman, a Texas State Certified Teacher, created the “Learn the Whole Bible ASAP” curriculum to help students quickly grasp the Bible’s storyline. In just 20 short lessons, students improve their understanding of literature, identify cultural references, and sharpen critical thinking skills—key elements for academic success.

Studies show that students with a strong knowledge of biblical references tend to score higher on standardized tests. Research indicates these students score 10-15% higher on SAT Critical Reading and AP English Literature exams compared to peers without this knowledge.

Berkman’s book, *Learn the Whole Bible ASAP*, offers a fast, effective way for students and families to understand the Bible’s story while boosting academic performance and cultural literacy.

CONTACT: Tamara Berkman at (830) 201-3160; tberkman@rtirguests.com

SAMPLE QUESTIONS:

- How does knowing the Bible enhance students’ critical thinking and academic performance?
- What makes “Learn the Whole Bible ASAP” unique compared to other Bible curricula?
- Why is it important for all students to have a basic understanding of the Bible?

How a Dog Named Silly Sally Taught Me to Keep My Heart Light (and How to Grieve)

America loves dogs—over 65 million households have at least one. Losing a beloved pet can be heart-wrenching. **Jean Alfieri**, author, speaker, and pet loss grief coach, understands. Her rescue dog, Silly Sally, taught her how to grieve, remember, and celebrate the special bond we share with our pets.

Having adopted older shelter dogs for decades, Alfieri had experienced pet loss before. But when Sally passed, she returned to creative outlets to process her grief. Along the way, she was reminded of others facing similar loss—single friends whose only family was a pet, parents helping a child grieve their first dog, and seniors or veterans who’d lost a comfort or therapy animal.

To support grieving pet owners, Alfieri developed 21 ways to weather the loss of a pet—a practical, heartfelt toolbox of ideas to help others navigate the pain of loss while honoring their pet’s memory. Her goal: to bring comfort and lightness by reminding us that love never ends—it simply changes form.

SAMPLE QUESTIONS:

- What are a few of the 21 strategies you recommend to grieving pet owners to help them find comfort?
- What did you learn from Silly Sally that you didn’t expect, both about grief and about love?
- Were there any particular rituals, like writing letters to Silly Sally or creating a memorial, that helped you the most during your grief journey?
- Could you share one special story of a rescue dog who has profoundly impacted your life and understanding of dogs?

How This Author Turned a Childhood Struggle with Self-Doubt into a Mission to Help Kids Battling Imposter Syndrome

What happens when a child starts believing they're not smart enough, good enough, or "just not a school person"? For bilingual teacher-turned-author **Armida Espinoza**, those doubts began in first grade—and followed her into adulthood. Now, she's using her story to stop the cycle for today's kids.

Through her award-winning *Brave Lolis* children's book series, Espinoza helps kids recognize and redirect negative self-talk before it damages their confidence, performance, and dreams.

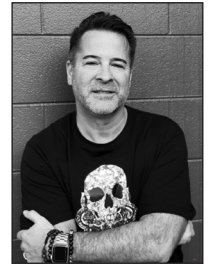

As a first-generation, second-language learner, she knows what it's like to go silent in class out of shame. Espinoza's books and workshops equip young readers—and the adults who support them—with the tools needed to build resilience and shift into a growth mindset. Her mission? To make sure no child grows up believing they're not enough.

SAMPLE QUESTIONS: Why is it so important to start teaching kids about self-talk early? What are the warning signs a child may be struggling with imposter syndrome?

How to Raise Resilient Kids in Scary Times

Today's kids have more stressors and fear triggers than ever, including constant exposure to social and other media, bullying, intense pressure to excel at everything, and more. In addition, modern society often sends the message that today's kids are fragile. According to **Jack Gindi**, that is our biggest mistake. "Real resilience isn't built by avoiding pain or by force and struggle," he says. "It's built by teaching kids how to navigate life's challenges with confidence and grace."

This conviction led him to found the I Believe in Me program, which provides kids and parents with practical tools for building self-esteem, managing emotions, and setting achievable goals.

INTERVIEW IDEAS: Jack can discuss how his own troubled childhood—which included molestation—and his experiences as a father of four and grandfather of six led him to create this program. He can also share details about how to enable today's kids to become more resilient.

The One Thing to Do Every Day to Reach Your Goals

The main reason why most people don't attain their goals is because they often bite off more than they can chew, and get frustrated when they fall short. "That's because most people focus on a lofty goal instead of their progress," says **Gerald J. Leonard**, a successful CEO, author, project management expert and professional musician.

He can share how to change your mindset in order achieve maximum success. Gerald is the author of *A Symphony of Choices: How Mentorship Taught a Manager Decision-Making, Project Management, and Workplace Engagement — and Saved a Concert Season*.

SAMPLE QUESTIONS:

- What small things can people do to attain their goals?
- How can we focus on the positive as opposed to all of the things that can go wrong?

"Don't go for large, lofty goals. Instead, take an inventory of bite-sized milestones, commit to them and celebrate the small-scale wins."

How Will America Tackle The Worker Shortage That's Coming?

Economists predict the U.S. will experience massive labor shortages in the next two decades and experts say the nation could be short three million workers by 2030. New technologies like artificial intelligence will fill some jobs, but companies will struggle to fill many openings. **David DeLong** can explain how innovative businesses are meeting chronic staffing shortages by hiring traditionally marginalized workers.

SAMPLE QUESTIONS:

- How does hiring marginalized workers benefit both the company and the people they hire?
- Whether coming from a refugee camp, prison, or dealing with a lifelong disability, what lessons can we learn from traditionally marginalized workers?
- How can businesses recruit marginalized job candidates they would normally overlook to ease their chronic staffing?

David DeLong is the president of Smart Workforce Strategies and the author of *Hidden Talent: How to Employ Refugees, the Formerly Incarcerated & People With Disabilities*.

Alcoholism, Infidelity, Bankruptcy: This Couple Can Show You How to Save Your Relationship from Anything

Diana and John Snowden's 57-year marriage is a powerful testament to resilience and transformation.

After facing alcoholism, infidelity, and bankruptcy, the Snowdens defied the odds and rebuilt their relationship, offering a beacon of hope for couples today.

Their five-year separation became a transformative period, where they learned essential lessons about:

- Their mutual desire for hope and direction.
- Their longing for peaceful, loving family bonds.
- The misconception that both spouses carry equal blame for the same problem.

Now, they share their story of vulnerability, growth, and rebuilding a successful marriage—not perfect, but real and resilient. Their journey proves that with honesty and effort, love can survive and thrive, even after life's biggest blows.

SAMPLE QUESTIONS:

- What advice can you give couples facing the same challenges you endured?
- How can couples learn to be open about mistakes they make in a relationship?

Do a Show on the Best Music You've Never Heard

Popular music has a hidden history, and most of it is contained in records that were shelved. So many albums—by artists you probably know and love—either never saw the light of day or were released years after being recorded.

Musician and author **Tom Maxwell** knows quite a bit about the subject, being the hit songwriter for his old band —the multi-platinum-selling Squirrel Nut Zippers. Tom is also the creator, host, writer, and executive producer (along with **Partner Emrys**) of “Shelved,” a new Audible audiobook. “Shelved” takes a deep dive into eight projects, featuring licensed music as well as interviews with artists, critics, and industry insiders.

Tom spent his early adulthood as a professional musician, writing a Top-20 hit and touring the world. Now he's an author, most recently of *A Really Strange and Wonderful Time: The Chapel Hill Music Scene 1989-1999*.

Bridging Beliefs: How the Core Truths of Judaism, Islam, and Christianity Can Unite Us All

What if the world's three major monotheistic religions were never meant to be divided? In *One Lord: Uniting Jews, Christians, and Muslims*, author and researcher **John Hageman** reveals how the true message of God/Allah—hidden within centuries of religious dogma and conflicting scriptures—can bring us together instead of tearing us apart.

With a scientific mind and a spiritual heart, Hageman explores the scriptures of all three faiths, exposing the lies woven into all our holy scriptures—and the Lord's divine truths that still shine through.

Invite Hageman on your show to discover how faith, logic, and wisdom can show the obvious path to unity by simply: loving the Lord, loving our neighbors, doing good, and resisting evil.

CONTACT: John Hageman at (210) 806-7961; jhageman@rtirguests.com

SAMPLE QUESTIONS:

- What are the proofs that there are lies in our scriptures?
- Why would the Lord allow lies in our scriptures?
- What makes you believe that all three of the major-monotheistic religions contain both truth and deception?
- What scriptures are common to these three religions?
- How did your background in the sciences qualify you to undertake this religious task?

Why Cities Need Neighborhood Safety Experts — Not Just More Police

What if preventing gang violence, drug activity, and youth crime didn't require additional cops, but more empowered citizens? For over 40 years, author and crime prevention consultant **Stephanie Mann** has trained "Neighborhood Safety Experts" (NSEs) to do just that.

Working alongside—but independent from—police, NSEs are trusted community members who speak the language, understand the culture, and unite neighbors to reclaim their blocks.

From reducing gun sales to identifying traffickers, this grassroots strategy has built safer, healthier, and more connected neighborhoods through the organization of over 27 citywide prevention committees.

With cities spending billions on crime after it happens, isn't it time we focused on preventing it in the first place? Invite Mann on your show to get insights on how everyday people can powerfully protect their communities.

SAMPLE QUESTIONS:

- What makes Neighborhood Safety Experts more effective than traditional policing in some communities?
- Can you share a success story where citizen involvement led to real change?

How to Protect Older Loved Ones From Elder Abuse

More than 57 million people worldwide suffer from dementia. Not only does this awful disease cause severe mental and physical impairment, it can lead to many forms of abuse inflicted by those within the person's orbit.

"My mother, Janie Falk, was the matriarch of a wealthy, high society European family who suffered from dementia at the end of her life," says author **Patrick Falk**. "She was taken advantage of by various scoundrels and family members, with only me, her son, left to pick up the pieces."

Patrick can share how the financial abuse of the elderly at times requires the complicity of lawyers, notaries, curators, and caregivers, and how to avoid it.

Patrick is the author of *Janie and Me: A True Story of the Evolution and Impact of Dementia*, in which he shares his experiences as a caretaker for a loved one who was struggling with dementia.

What It's Really Like to Fly into a War Zone? Interview a Woman Who Did

During her decades-long career as a flight attendant, **Tania Anderson** has had her share of harrowing experiences during some of the most volatile times in modern history, and miraculously survived. "In 2013, I flew military personnel and contractors into Bagram Air Base in Afghanistan. The base was surrounded by pro-Taliban guerrillas, who would sometimes shoot at planes taking off or landing."

Tania currently serves the U.S. military through a Department of Defense contract with a charter airline, which flies American soldiers around the world to every continent except Antarctica.

She is the author of the memoir *On Butterflies' Wings: An Anthology of International Escapades*, and the upcoming *Synchronicity—the Escapades Continue*.

Why AI Is Not the Enemy: Interview the Thought Leader Who Thinks It’s the Path To Our Kids’ Future

It’s easy to fall into the trap of thinking that AI is a kind of intellectual crutch or scholastic cheat code—and it certainly can be misused in that manner—but thought leader **Marc Prensky** believes that we’re giving this remarkable new tool short shrift. In fact, he believes AI is the next step in human evolution.

A graduate of Harvard Business School, Prensky is the author of *Third Millenium Kids: Helping Young People Thrive in an Age of Exponential Technology Change*. Have him on your show to hear his forward-looking take on what today’s kids need to change the world, because that’s exactly what they’re about to do.

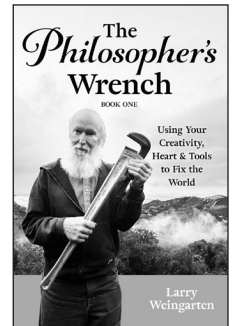

SAMPLE QUESTIONS: Why do you think it’s a myth that kids’ malaise is caused by their cell phones? Tell us what you mean by non-biological evolution, and how is AI a part of that?

The 80s Are Calling ... They Want You to Eat Like They Did

If you’re struggling with your nutrition goals, consider the benefits of eating and having a lifestyle like it’s 1980!

Jodi Velazquez relied on her childhood habits to assist with nutritional care for her young daughter. “My daughter was diagnosed with Type 1 Diabetes at 19 months old. I had great success with managing her diabetes by incorporating a diet for her that was like the way I ate in the 80s. I also kept her active like I was as a child.”

The author of *Know the Enemy: Preventing Weight Gain, Diabetes & Disease* will explain how she created a lifestyle that keeps her family healthy and how listeners can do the same.

SAMPLE QUESTIONS: How hard is it to achieve 1980s-style eating and lifestyle today? Is this way of eating only for diabetics? What is the biggest difference in nutrition and lifestyle from the 1980s to today? What is most overlooked but easiest to change regarding the poor American diet?

Can America's Political Parties Coexist? This Conservative Thinker Says "No"

Americans are more divided than they have been in decades, and author **Taylor Woodruff** believes that they should remain that way. "I understand that a national divorce is a tough sell," he says. "Now that Trump has won, he will put forth policies that should result in a measure of peace and prosperity. If he is successful, this will result in a semblance of national unity, which most people want. Be that as it may, I still believe that America should divide, not out of rancor, but because of the competing moral platforms within the culture."

He is the author of *The Case for National Divorce, One Christian's Perspective*.

Interview the First Illiterate NBA Player to Get a Master's Degree

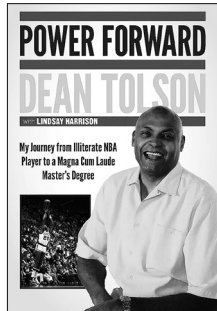

Dean Tolson was functionally illiterate when he joined the Seattle Sonics in the 1970s. Sure, he was the all-time rebounder at the University of Arkansas, but that didn't prepare him for life after four years in the NBA.

Tolson believes his greatest achievement was earning a master's degree magna cum laude. Now he devotes his life to reach at-risk youth and adults about the power of education.

Tolson is the author of *Power Forward*, a book about his experiences on the court as well as in the classroom. He's living proof that adversity is no match for a positive attitude.

SAMPLE QUESTIONS: People think being a pro basketball player means you're set for life. What's the reality? What do you tell kids who think education is a waste of time?

What Your Doctor Won't Tell You About Menopause

Menopause is a universal life stage that impacts millions of women worldwide, yet it remains under-discussed and misunderstood. Women often feel isolated or unsupported and struggle with symptoms that affect their health, happiness, and relationships. Many feel traditional medical advice is limited and doesn't address the whole person or offer sustainable solutions.

Lisa Triggs can share her transformative journey from deep depression and debilitating symptoms to a life of joy and fulfillment. The author of *The Menopause Mindshift: How I Unleashed My Inner Queen, And You Can Too!* will inspire women to go beyond medication to truly transform their menopause journey. She'll offer practical tools like meditation, affirmation, and visualization to bridge the gap between medical and physical health during menopause.

SAMPLE QUESTIONS: Why do you think there is a gap in support for women in menopause? What unique advice can you offer to women struggling with symptoms?

Blame it on Biology: Why We Get So Mad Talking Politics

Although we may never be able to fix the divide we have in politics today, maybe we can better understand it. Have you ever found yourself in a full-blown fight about politics after what started as a calm conversation with a friend and wondered, "How does that happen?" Psychiatrist **Melvyn Lurie** says more is going on than you realize. Invite the author of *The Biology of Politics* to explain exactly what is happening.

In plain terms, he says it's all about basic biology: we all have certain drives that are part of our animal nature which must be met.

For example, even much simpler creatures like birds have an innate drive to protect the nest. When people talk about tightening the border, he says many are operating out of a very deep drive to "protect their nest."

On the flip side, he says there's an equally powerful drive to help the most vulnerable—one that motivates people to expand the safety net.

Lurie can discuss the many hidden drives that are a fundamental part of our nature and help your audience learn how to discuss and debate politics (or anything) with family and friends without resorting to anger, rage or name-calling.

Dr. Lurie is an honors graduate of Harvard Medical School. He has practiced and taught medical students at Harvard and Tufts, has served as an expert witness, managed political campaigns and once even ran for political office.

Are Autism and ADHD Actually Superpowers?

Autism and ADHD are generally considered disabilities for individuals who struggle with them. But according to **Donna Redman**, those individuals are simply more in tune with their senses—which can be viewed as superpowers!

“People with autism, ADD, and ADHD (just to name a few) are often overwhelmed by their senses,” she says. “The problem is, they have so much sensory input that it’s hard to process everyday experiences. This can cause them a lot of stress and, in some cases, great pain.”

Donna created the Secret Genius of Sensory Processing Program to allow neurodiverse children and adults to unlock their hidden genius by using their senses to their advantage.

SAMPLE QUESTIONS: What are some of the biggest myths about people with autism that you can debunk? How do their senses differ from those of “normal” people, and what can they do to feel less overwhelmed?

‘How Amnesia Saved My Life’

After experiencing unimaginable childhood abuse, bestselling author, master coach, and board-certified music therapist **Lisa Morgan** experienced amnesia and soul fracturing—what was previously known in the psychiatric field as multiple personality disorder.

“These were coping mechanisms, which aided my survival,” she says. “When panic and anxiety struck in 1999, it launched me onto a profound healing journey.”

She developed body-voice-energy therapies that helped her to survive, and thrive, despite the deep emotional trauma she experienced.

On your show, she’ll share strategies from her Freedom Body Blueprint© and Targeted Truth-Talking & Tapping© programs to help your audience heal and reclaim their fullest potential, teaching them how to break free from hidden emotional blocks and resistance. She is a sought-after speaker and co-author of *Against All Odds*.

The Hidden Epidemic: How Isolation is Impacting Teen Mental Health

While the general belief is that the elderly are more inclined to experience loneliness and isolation, recent university studies have concluded that teens actually are more likely to experience this. One major cause is pervasive overuse of social media.

“Social media can lead to feelings of negative comparison, inadequacy, and exclusion for teens,” says retired psychiatrist and author **Dr. Shila Patel**. “The resulting feelings of isolation can result in a host of physical and mental health issues, ranging from weakened immune function to acute depression, as well as thoughts of suicide.”

Shila is a retired psychiatrist who spent her career focused on women’s and children’s issues, and the author of the three-book series *US Unhinged 1 and 2* and *US Fractured*.

SAMPLE QUESTIONS: What are the major signs of teen isolation? How can parents, teachers, and health professionals support kids who are experiencing this?
